

# What Happened On Club Night!

19 November 2018 8pm

DAC Club House

## Attendance:

Members started to arrive at 7:30pm and mingled together to exchange news, experiences, ideas or simply for a chat. The evening commenced at 8:10pm. The evening was attended by 27 members. Juris presided the night as President of the club.

Members listening intently

## Special Welcome:

A special welcome was extended to David and Melissa Law who had taken the time and effort to be with us to present their experiences in the F4 Scale World Championship. They were part of the Australian team competing at the Meiringen Air Base in Switzerland over more than a week.

David providing the inside information

The Australian team won the F4C category. David was one of the pilots with Melissa managing the team. The Pitts Special S2A that David flew in the competition was on display. The model is a scale model of a real plane that he located in Moorabbin Airport. The scale is not just to the dimensions and paint job but also right down to details such as dents, scratches and oil patches. And then there are documentations to the build and the real plane that are assembled and presented at the competition.

David and Melissa gave a great insight into the process of

getting themselves and the hardware to the competition. All that came with plenty of hardship, commitment, sacrifices and utmost dedication. This is not just for the year 2018 but for more than a decade before. 2018 topped it off with a GOLD. Congratulations to David and Melissa.

What a couple

## Concluding The Night:

The evening concluded with a small token to David and Melissa Law, followed by pizza and a few soft drinks. It was a ripper night.

That's the baby!!

Thank you for your time and effort

Pizza at the end
